

## SIMWINGS COMMUNITY SUPPORT PROJECT – SPONSORED GROUP FLIGHT

### ROUND THE ALPS CHALLENGE SPONSOR FORM

Welcome to this first of many, sponsored event "Round the Alps" Challenge. Thank you for registering and being part of this fundraiser.

We will be flying around the French and Swiss alps taking in some of the most scenic and breathtaking views of this magnificent part of Europe.

Our aim here at the project, hopefully with your help, is to make it possible for some, or maybe even just one, to take to the virtual skies in their own PC simulator, and so take an active part in the very live streams where we often see them. Or better yet.... they may go on to create their own online content, where they entertain us. And so the circle continues.

Here at the project, we believe that if enough people are willing to contribute just a small amount, we could surely make at least one aspiring flight simmer very happy, while also building upon our own community.

Many of us are fortunate to be in a financial position that allows for the purchase of hardware and software pretty much as we please. Those of us here at the project believe we're privileged, even blessed to be fortunate enough to find ourselves in this position. THAT my friends is what inspired the thinking behind this project.

So we decided we'd like to at least TRY to do something about this – to make a difference, however small.

With that in mind, MAYBE some of us can also contribute a small amount into this project; a fund to help aspiring and budding flight simmers, young or old, wherever they may be, to obtain a capable system and a flight simulator they may otherwise not be

| NAME | SPONSORED AMOUNT |
|------|------------------|
